

Rashi Vishwakarma

+91 9131082019 | rashivishwakarma2004@gmail.com | linkedin.com/in/rashi-vishwakarma | github.com/Rashivishwakarmaa

Skills

- **Languages:** C/C++, JavaScript (ES6+), TypeScript, Python, SQL
- **Frontend:** React.js, Next.js (App Router, SSR/ISR), HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, Authentication (JWT, OAuth)
- **Databases:** MongoDB, MySQL, Database Design, Indexing & Query Optimization
- **Cloud & DevOps:** AWS, Azure, Docker, Kubernetes, Terraform, Ansible, CI/CD Pipelines (GitHub Actions)
- **Tools & Systems:** Git, GitHub, Linux, Postman, VS Code, IntelliJ IDEA, PyCharm

Experience

Open Source Contributor

May 2026 – Present

GirlScript Summer of Code (GSSoC '26)

- Contributed to production-grade open-source projects by implementing features, fixing bugs, and improving documentation, enhancing usability and developer experience
- Collaborated via Git/GitHub workflows and code reviews, ensuring clean, maintainable, and scalable code across distributed teams

Web Developer Intern

June 2025 – July 2025

Tamizhan Skills

- Built and deployed 3 web applications (Galaxy Portfolio, To-Do List, Blothic) using HTML, CSS, JavaScript, focusing on responsive design, modern UI/UX, and optimized frontend performance
- Developed a dynamic task management system (CRUD) and structured reusable UI components, leveraging Git/GitHub workflows for version control and iterative development

Projects

CalmConnect- AI Powered Mental Wellness Platform 2025 *React.js, Python-Flask, SQLite, REST APIs, Bootstrap, OpenAI API*

- Built a full-stack platform integrating AI chatbot (CalmChat), journaling, appointment booking, and community features for end-to-end mental health support
- Designed and implemented 10+ RESTful APIs with role-based authentication (Admin/User/Professional) enabling secure, scalable multi-user interactions
- Engineered real-time chatbot system with low-latency responses and integrated CBT-based wellness tools for actionable mental health guidance
- Developed mood tracking and scheduling systems, optimizing user-therapist coordination and structured data management across sessions

Docs QandA Chatbot

2026(In progress) *Python, FastAPI, React, LangChain, FAISS, HuggingFace, REST API*

- Built a full-stack RAG (Retrieval-Augmented Generation) web app enabling users to upload PDF/Markdown documents and query them conversationally using natural language
- Implemented semantic document chunking and HuggingFace sentence embeddings stored in a FAISS vector index for fast and accurate context retrieval
- Designed a FastAPI backend with streaming response support and a React chat interface that displays AI-generated answers with source citations
- Deployed a multi-document support system allowing users to switch between uploaded docs and maintain separate conversation contexts

Education

Manipal University Jaipur

Jaipur, India

B.Tech. Information & Technology

Aug 2023 – May 2027

Coursework: Data Structures, Algorithms, Database Management Systems, Software Engineering, Computer Networks

Recipient of Multiple Student Excellence Awards by the Department

Certifications

- Oracle Academy – Database Programming with SQL
- Red Hat System Administration I & II (RH124, RH134) – RHEL 9.3
- Cybrom Technology pvt. Ltd., Core and Advanced Python
- Google Cloud – Introduction to Generative AI
- Infosys Springboard – Introduction to Cloud Computing
